Since the day of the „Leave“ vote, now almost 2,5 years ago, Brexit has been a regular topic on the agenda for entrepreneurs over the world. The EU and the UK indicated that it should soon be clear how their future relationship will look. Since the 29<sup>th</sup> of March 2019, the date when the UK will leave the EU, is fast approaching, taxpayers should begin to plan to deal with it.

In our multidisciplinary seminar, we will provide you with an overview of the expected significant changes with a focus on taxation. We will not only discuss the changes that are directly caused by the Brexit, but also a number of new tax laws that will be introduced by the UK and German government and will affect the tax position of entrepreneurs doing business on both sides of the border.

We hope that you can join us for what should be an interesting look at the effects of Brexit and the UK governments latest changes to how they tax non-UK businesses and individuals.

**Topics of the seminar:**

- Status of the Brexit deal and immediate tax effects on German entrepreneurs
- German tax law proposal with respect to Brexit
- Treatment of Limiteds
- UK positions on post-Brexit VAT
- New UK tax law, affecting foreign entrepreneurs
- Roadmap “How to deal with Brexit in your organization”
